REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT

12/20/2005 MDANTE2 00000004 192380 6960649 UNDER 37 C.F.R. § 1.705(d)

01 FC:1455 200.00 DA

Applicants hereby respectfully request the Commissioner to reconsider the patent term adjustment for the above-identified patent. Specifically, Applicants respectfully request that the term of the above patent be extended by 225 days, instead of 156 days as shown on the currently issued patent.

A 99-day reduction is included in the current patent term adjustment based on Applicants' Request for Issuance of the Application in the Name of the Assignee filed on July 26, 2005, after the Notice of Allowance. Applicants respectfully submit that filing this Request does not constitute a "failure to engage in reasonable efforts" to conclude processing or examination of a patent application, as set forth in 37 C.F.R. § 1.704(a). In particular, Applicants submit that the July 26th Request is similar to "Change of Status (small/not small entity status)," as noted in 1247 Official Gazette 111 (June 26, 2001) (Clarification of 37 C.F.R. § 1.704(c)(10) – Reduction of PTA for Certain Type of Papers Filed After a Notice of Allowance Has Been Mailed), which is not considered a "failure to engage in reasonable efforts." The July 26th Request merely directs the Commissioner's attention to the already-recorded Reel/Frame numbers and, therefore, does not cause any substantial interference and delay in the patent issue process as explained in 1247 Official Gazette 111.

In addition, the July 26th Request was submitted to avoid the same error made in the parent application, now U.S. Patent No. 6,395,477. There, the Assignee was mistakenly listed on the issued patent as "American Home Products Corporation," instead of "Wyeth," even though Applicants had filed a Change of Assignee Name before the patent was issued.

Furthermore, Applicants respectfully submit that even assuming that the July 26th Request constitutes a "failure to engage in reasonable efforts," any patent term reduction for such a filing should be zero (0) days. This is because 37 C.F.R. § 1.704(c)(10) specifically requires that the period of adjustment be reduced by "the lesser of: (i) [t]he number of days, if any, beginning on the date the amendment under § 1.312 or other paper was filed and ending on the mailing date of the Office action or notice in response to the amendment under § 1.312 or such other paper; or (ii) [f]our months." Since no Office action or notice has ever been mailed in response to the July 26th Request, and no official response was ever expected, Applicants respectfully submit that any patent term adjustment for filing the July 26th Request should be zero (0) days, which is the lesser number pursuant to the statute.

Based on all of the above reasons, Applicants respectfully request the Commissioner to add 99 days to the current patent term adjustment. Therefore, the patent term adjustment for this patent should be 255 days. Applicants further submit that this patent is not subject to any terminal disclaimer, and Applicants are not aware of any other circumstances that would constitute any failures to engage in reasonable efforts to conclude processing or examination.

The Commissioner is hereby authorized to charge the required fee as set forth in 37 C.F.R. § 1.705(d) to Deposit Account No. 19-2380 (031896-073100). Should the Commissioner have any questions, the Commissioner is invited to contact Applicants' representative designated below.

Respectfully submitted,

NIXON PEABODY LLP
